Hi So
Thank you so much for passing this along however, we are getting a proposal this week from a biology company that we worked with in the past.
Thanks again!

Subject: wren and cagn surveys

Hi So and Elias,

Thank you both for your time in conversing with me. As you know we are interested and eager to receive any data from the required ganatchater and cactus wren surveys that the Trump project may have conducted this year or last year. So, thank you for confirming that this is a requirement under the project's Habitat Conservation Plan.

We are interested in the data as we review current status and future trends for these species. We just conducted a survey for the remainder of the Palos Verdes Nature Preserve.

As the nesting season is drawing to a close, it might be most efficient for the project to work with our contracted ornithologist. To try to be helpful, we asked him what the cost would be. His quote for survey work for the Ocean Trails Reserve area is $2,330 and attached. We look forward to hearing back soon about this. Thank you.

Warm regards,
Andrea
